

About us:

NorthSouth Foundation (NSF) is a US-supported non-profit organization that **has been promoting excellence in education among economically disadvantaged and academically brilliant students** for the last 35 years. Through scholarships and creative learning initiatives, NSF provides financial assistance along with personal and professional development to equip students with industry relevant expertise & nurtures creativity and critical thinking in children. We have provided scholarships worth ₹36 crores to nearly 20,000 students in the last decade. NSF Assessments works with 1,250 schools across 10 school systems, with a current registration of 2,25,000 students.

Creative Learning Initiative (NCL)

The NSF Creative Learning & Leadership (NCL) Education Initiative offers high quality **competency-based assessments** aligned to the curriculum at no cost to government schools in India. The initiative uses an online platform, detailed dashboards, and a high-quality question bank to provide comprehensive feedback and support.

Goal

To empower students with competency-based assessments and improve educational outcomes

Our Approach

Assessment-Driven Learning: Moving away from rote memorization.

Teach-Assess-Remediate Cycle- Identifying gaps, enabling targeted support.

The NCL initiative is designed to unlock the innate creative learning and thinking capabilities of children, fostering their curiosity and moving away from rote learning.

Subjects Covered

Grades 3-5: English, EVS, Mathematics

Grades 6-10: English, Science, Mathematics

Grades 11-12: English, Chemistry & Physics, Optional: Math/Biology

Key Features

Free Assessments: No-cost tests for government school students.

Online Platform: Supports online assessments and provides feedback.

Detailed Dashboards: Performance insights for teachers to aid remedial support.

Quality Question Bank: 70,000+ questions for grades VI-XII CBSE.

Regular Assessments: Six assessments annually with feedback for improvement.

Syllabus-Based: Questions based on the current syllabus.

Two Types of assessments

Sadhana (Formative)

Frequency: 4 times a year before school tests

Sodhana (Summative)

Frequency: Twice a year before half yearly and final tests

Embracing Competency-Based Education (Proposed by *NEP)

- Active Learning
- Critical Thinking
- CBSE/SCERT Curriculum
- Application-Based Assessments
- Analyze Strengths & Improvement

***NEP- National Education Policy**

Benefits

Students: Gain real-world skills and personalised learning.

Teachers: Get detailed insights to enable targeted teaching.

School Administrators: Use data effectively and make informed decisions.

Why NSF Assessments?

Testimonials

"NSF's Sadhana and Sodhana assessments have greatly enhanced my creativity, critical thinking, and reasoning, particularly in science."
Apurva, Class XI, JNV, Telangana

"The NSF Sadhana and Sodhana assessments have helped me prepare for the CBSE board exams."

Rohit, Class XI, JNV, Telangana

Impact

Through our scholarship programs, we have **supported thousands of students** in their educational journeys, helping them to achieve academic excellence and pursue successful careers.

In the academic **year 2023-24**, we provided **3,442 scholarships** worth **₹8 Crores**.
